## BACKGROUND OF THE WEATHERIZATION ASSISTANCE PROGRAM

The Northern Arizona Council of Governments Weatherization Assistance Program was established in 1982. Its purpose is to provide energy saving Weatherization services to low and moderate income families throughout Apache, Coconino, Navajo and Yavapai Counties.

Funding is provided by the American Recovery and Reinvestment Act and the U.S. Department of Energy (DOE), through the Arizona Department of Commerce (ADOC). Arizona Public Service (APS), and UniSource Energy Services (UES) also provide funding for services.

The applicant must live in one of the Northern Arizona Counties listed above.

## WHAT IS THE WEATHERIZATION ASSISTANCE PROGRAM

WEATHERIZATION is about:

**Saving you money on your utility bills.**

**Achieving the proper airflow balance in your home.**

**Verifying the usefulness and safety of certain household equipment.**

**Energy efficiency!!**

Upon determination of eligibility, NACOG Weatherization staff will schedule and perform a complete energy audit of your residence.

Our weatherization specialists will do carbon monoxide testing, check your insulation & ducting, test the air pressure in individual rooms and measure the overall airflow in your home. These tests identify leakages & airflow problems.

Possible repairs *may* include: HVAC repair/replacement, air sealing, refrigerator repair/replacement, insulate or increase insulation of attic and/or floor, repair of forced air duct systems, repair/replacement of gas range, repair/replacement of evaporative cooler.

*If applicable.*

## HOW TO APPLY FOR WEATHERIZATION ASSISTANCE

If you feel you and your residence may be eligible for Weatherization Assistance and you would like to apply, you may.....

Call Toll Free (877) 521-3500 or
